

WAREHOUSE TWO

WANT TO GET RID OF EXCESS INVENTORY?

WANT ANOTHER WAY TO FILL BACKORDERS?

Utilize WarehouseTWO – Easy-to-use, Easy-to-Deploy Inventory-Sharing

WarehouseTWO is a cost effective inventory-sharing tool utilized by Tribute customers and integrated with TrulinX software for optimal use. Created exclusively for manufacturers and their authorized distributor communities, WarehouseTWO has partnered with Tribute to make the inventory-sharing process as seamless as possible for our customers.

WarehouseTWO provides an added resource to fill customer orders with the brands and products you sell, but don't have to warehouse. Better yet, it allows you to make your slow moving or dead inventory available to a market segment you may not have considered before – peer distributors just like you.

No IT expertise is necessary, no up-front investment or special hardware is required, and there are no transaction fees. And best of all, it's integrated into your TrulinX Software, so no special modifications are required.

Benefits of inventory-sharing with WarehouseTWO include:

- ✓ **Integrated with TrulinX Software**
- ✓ **Ability to fill back-orders faster, improving customer service**
- ✓ **Sales outlet for unwanted inventory - for better asset management**
- ✓ **Opportunity for incremental revenue - for greater overall profitability**
- ✓ **Access to Inventory Sharing Groups for many vendors including:**
 - **Eaton Hydraulics Team:** includes Eaton, Aeroquip, Weatherhead, Hydro-Line, Vickers, Industrial Hose, Synflex, and Eaton-Integrated Hydraulics, among others.
 - **Parker Hannifin Fluid Connector, Hydraulic & Instrumentation Groups**
